Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because some fees will increase effective October 1, 2004. See Revision of Patent Fees for Fiscal Year 2005; Final Rule, 69 Fed. Reg. 52604, 52606 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$685.00
 - By other than a small entity..... \$1,370.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$245.00
 - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$330.00
 - By other than a small entity..... \$660.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Response to Request for Continued Examination

The examiner is in receipt of applicant's response to Office Action mailed 5/8/2003, which was received as an Appeals brief, 10/9/2003 and later as a Request For Continued Examination (RCE). Acknowledgement is made to the amendment of claims 1 and 15. A further conversation and proposed amendment was approved by Mr. Presson on 1/14/2004, therefore the following examiner's amendment and reasons for allowance are provided.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas Presson on 1/14/2004.

The application has been amended as follows:

Cancel claims 19 and 24.

Enter new claims 1 and 15 as follows:

1. A tracking system in which a package is to be sent from a user to a recipient by requesting shipping through Internet resources associated with carriers capable of delivering the package to the recipient, in which the user determines the carrier to be used for shipping a package to a particular recipient, comprising:

means for generating a tracking number, the tracking number being associated with the package to be sent from the user to the recipient by a selected carrier;

means for generating a tracking request, the tracking request containing the tracking number associated with the package, as well as information of the selected carrier which is to deliver the package to the particular recipient;

a storage location adapted to store the tracking request;

a tracking coordinator adapted to receive said tracking request and adapted to generate tracking objects,

and adapted to send said tracking objects to a tracking website of the selected carrier;

means for receiving results from the tracking website of the selected carrier;

means for updating shipping server data storage with the results from the tracking website of the selected carrier website; and

wherein the tracking coordinator comprises means for limiting the generation of tracking objects for the selected carrier based on pacing constraints provided by the selected carrier so as to be generated no more frequently than a carrier designated number of tracking objects per carrier designated interval.

15. A tracking method for a shipping system in which a package is to be sent from a user to a recipient by requesting said shipping through Internet resources associated with carriers capable of delivering the package to the recipient, in which the user of the shipping system determines the carrier to be used for shipping a package to a recipient, and in which the shipping system has a shipping system server with a data storage device for storing package tracking data, comprising the steps of:

- (a) generating a tracking number associated with the package to be sent from the user to the recipient by a selected carrier;
- (b) generating a tracking request containing the tracking number associated with the package, as well as information of the selected carrier which is to deliver the package to the particular recipient;
- (c) storing the tracking request;
- (d) generating tracking objects, and sending said tracking objects to a tracking website of the selected carrier;
- (e) receiving results from the tracking website of the selected carrier;
- (f) updating shipping server data storage with the results from the tracking website of the selected carrier website; and
- (g) limiting the generation of tracking objects for the selected carrier based on pacing constraints provided by the selected carrier so as to be generated no more frequently than a carrier designated number of tracking objects per carrier designated interval.

Allowable Subject Matter

Claims 1-3,6-8,13,15-17,20-22,25 and 26 are allowed.

The following is an examiner's statement of reasons for allowance:

The following is an examiner's statement of the reasons for allowance for all independent claims 1 and 15.

The present invention is drawn to a method for tracking shipped packages form a plurality of carriers through one independent website. The website through prearranged time intervals permits the website to access the carrier to extract pertinent data. This in turn assures that the website is not locked out when requests for large amounts of data are requested.

Each of the independent claims 1 and 14 identifies uniquely distinct features as follows.

Claim 1 –

means for updating shipping server data storage with the results from the tracking website of the selected carrier website; and

wherein the tracking coordinator comprises means for limiting the generation of tracking objects for the selected carrier based on pacing constraints provided by the selected carrier so as to be generated no more frequently than a carrier designated number of tracking objects per carrier designated interval.

Claim 15 -

updating shipping server data storage with the results from the tracking website of the selected carrier website; and

limiting the generation of tracking objects for the selected carrier based on pacing constraints provided by the selected carrier so as to be generated no more frequently than a carrier designated number of tracking objects per carrier designated interval.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's argument's, in paper 14, filed 10/9/2003, have been fully considered and were persuasive. Therefore, the examiner has reevaluated the subject matter and is providing this allowance based on the RCE filed in paper#15 and the subsequent telecon between Mr. Presson and the examiner dated 1/14/2003.
